

Immediate career opening for a bright, detail-oriented leader to join our Philadelphia Macaroni Company's team as **Processing Operator**. A processing operator is responsible for the safe operation of various machines and quality control equipment. Responsibilities include the setup, operation, and troubleshooting of equipment to comply with company safety guidelines, good manufacturing practices, and productivity standards. This is a full-time position located at our food manufacturing plant in Lee's Summit, MO.

DUTIES INCLUDE:

- Performs die format and recipe changes on Short and Long Goods press as procedures require.
- Constantly reviews the processing operation and parameters to monitor production and quality, anticipating and solving problems in a timely manner, and identifying opportunities for improvement.
- Maintains adequate records of key production variables such as production volume, yield, plant uptime, utility consumption, etc., on a daily, weekly, and/or monthly basis, as required.
- Regularly monitors Die Washing operations and Flour Unloading operations.
- Participates in projects that improve efficiency and/or reduce operating costs.
- Communicates directly with QA laboratory to ensure effective participation in the implementation of QA policies and procedures.
- Samples and tests process streams as required by the QA program and procedures.
- Maintains QA records.
- Understands and interprets QA results and takes appropriate action when required.
- Communicates directly with the maintenance department to coordinate maintenance and repair work in process areas.
- Performs preventive maintenance activities as required and assists maintenance technicians in performing maintenance and repairs.
- Assists with diagnosing and trouble-shooting maintenance related issues.
- Knows and understands Zerega's GMP policies and any federal regulations relating to process operations and works in a manner to ensure that these regulations are met at all times.
- Participates, complies, and follows 5S organizational program.
- Participates in programs and procedures required to ensure plant cleanliness.
- Monitors use and inventories of process chemicals and supplies.

OUR IDEAL CANDIDATE:

- Minimum of a High School Education or GED required
- Candidates with experience in the operation of a dry-mill ethanol plant are preferred.
- Must have the ability to learn and work effectively with Windows based OS and the plant's internal "Infostream" data collection program.
- Expertise and/or proficiency with basic office computer software, e.g., word processing, email, and spreadsheets is an asset.

Our company offers a competitive package including PTO, paid holidays, 401(k), health, dental, vision, life insurance and short and long-term disability insurance.
